FEATURE PRODUCT

FORD EA-AU 6cyl 4 Barrel Carb

NEW for AussieSpeed is this 4 barrel manifold to suit the EA to AU overhead cam Ford 6 cylinder engine. Proven high flow runner design perfect for speedway, drag racing or retrofitting this later plentiful engine into earlier Ford bodies. Can use modified XF dizzy to do away with all OEM engine management electronics.

In stock now at Kustom Bitz
4 barrel \$425

FORD CROSSFLOW 4.1 ltr

2 barrel \$405
4 barrel \$425

AussieSpeed manifolds for the Ford Crossflow 4.1 ltr XE-XF alloy head engines. Recent independent flow bench testing by Glen Salmon of GP Engines in WA using one of his performance heads, showed that the 2 barrel and the 4 barrel AussieSpeed manifolds flowed not only more cfm, but had more even flow between the intakes for each cylinder.

Make more power with AussieSpeed or tune for better fuel economy. Designed & Made in Australia.
